

Problem 1: Cat Shopping

Time Limit: 1s

Jacob, feeling a bit lonely, decides to buy a cat. He goes to the pet store and finds a cat that he likes. The cat costs C dollars. Jacob has D dollars. Can he afford the cat?

Constraints

$$1 \leq C \leq 10^3$$

$$1 \leq D \leq 10^3$$

Input Specification

The first line of input will contain the integer C , the cost of the cat. The second line of input will contain the integer D , the amount of money Jacob has.

Output Specification

Output `yes` if Jacob can afford the cat, and `no` otherwise.

Sample Input

```
250
300
```

Sample Output

```
yes
```
